Solo Luggage Racks by Motherwell Products

Runnin a solo seat? Then here's the answer to how to haul your gear on your next road trip. Beautifully crafted in chromed steel, these rugged racks are built to give years and years of service. They are available in either a 6" or 7" version and in chrome or matte black finishes.

Chrome

- 621111** 7" rack, Fits Road King models 97-12
- 621100** 6" rack, Fits Road King models with Corbin solo seats from 97-07
- 621103** 7" rack, Fits all Dyna Glide models (except Dyna Wide Glide and FXDB models) 06-12
- 621115** 6" rack, Fits all Dyna Glide models (except Dyna Wide Glide and FXDB models) 06-12
- 37472** 6" rack, Fits all Dyna Glide models (except Dyna Wide Glide models) from 91-05
- 37470** 6" rack, Fits all Sportster models from 85-03 (97-12 models require CCI#75089 mounting kit)
- 621113** 6" rack, Fits all Sportster models 04-12
- 621101** 6" rack, Fits all FLSTS models

Matte Black

- 621112** 7" rack, Fits all Dyna Glide models (except Dyna Wide Glide, FXDB models) 06-12
- 621114** 6" rack, Fits all Sportster models 04-12

Heat Deflectors by National Cycle

Owners of TC96 Touring bikes can really feel the heat, so the factory installed a heat deflector on the rear cylinder on Touring models. Now you can replace those OEM black plastic ones with the new National Cycle Heat Shields. The dark tint polycarbonate lets more of the engine show through without letting the heat waves roast your thighs. Sold as a pair

603592 Heat deflectors for all 08-11 Touring models

19166

Chubby R.K. II Bars

Specifically designed for the Road King, and riders of average height and above, also a great fit on FLSTC, FLSTF, and stretch frame custom bikes. Fluid Bends set you in the optimum riding position with hand & wrist placement for maximum comfort & control. Work with stock controls, cables, brake line and wiring on FLHR, FLSTC and FLSTF models.

Note: We recommend using stock plus 2" - 4" throttle & idle cables on FLHR, FLHRCI models with cruise control.

Chrome

19166 Width 35.5", end rise 5.5", center 12.0", pullback 14.25"

640976

Black Banana Boards by CycleSmiths

CycleSmiths is now offering its popular Banana Boards and accessories in a black powder coated finish. They still have that distinct look with their long shape and curved front & rear tips. They feature a high-grip rubber surface that is riveted to the floorboard for a very cool look. To complete the package matching passenger floorboards, footpegs, shift pegs, and brake pedal pads are also available.

Rider Floorboards

Fits all Touring and FL Softail from 80-12

- 640976** Long (19" floorboards)
- 640977** Short (14" floorboards)
- 640987** Extra-Long (20.75" floorboards)

Passenger Floorboards

Fits all Touring and FL Softail models equipped with accessory passenger floorboards from 80-12

- 640981** Sold in pairs

Optional Accessories

- 640980** Standard male mount footpegs (sold in pairs)
- 640979** Shift/brake peg (sold each)
- 640978** Brake pedal pad fits all Touring and FL Softail models from 86-12

Chrome Smooth-Contour Control Kits

Unique design has hidden underside mounting on the switch housings for an unobstructed smooth, rounded surface on the top housing. Switch housings use stock or CC custom rounded switches (introduced on 96 models). It is possible to update most models from 72-95 to the latest style with minor wiring and control cable changes. Available in complete kits with or without chrome switches and as individual components. *Not for 04-11 Sportster models*

Complete Kits

Includes ergonomic clutch and brake levers, master cylinder, switch housings, brackets and hardware. Available with or without chrome switches.

23290 Kit with switches and 11/16"-bore master cylinder for dual disc models from 96-06 (except 04-11 Sportster). Will also fit 84-95 dual disc models with simple rewiring

627704 9/16"-bore master cylinder for single disc models from 07-12 (except 04-12 XL models) does not include switches

23250 Same as CC #23290 but without chrome switches

23291 Kit with switches and 9/16"-bore master cylinder for single disc models from 96-06 (except 04-11 Sportster). Will also fit 84-95 single disc models with simple rewiring; not Sportster 04-11

23265 Same as CC #23291 but without chrome switches

23292 Kit with switches and 5/8"-bore master cylinder for single disc models from 84-95 with simple rewiring

23275 Same as CC #23292 but without chrome switches

Note: Switch housings cannot be mixed with 96-12 OEM switch housings. Control kits and switch housings (right) require OEM or Custom Chrome switches for 96-10 models and require use of 96-12 style throttle cables with circlip retainers inside the switch housing.

CHROME
EXCLUSIVE

MADE IN THE USA

Moroso Ultra 40 Plug Wire Sets

Moroso Ultra 40 plug wires set the standard in high performance ignition wires. With optimized EMI (electro magnetic) and RFI (radio frequency) resistance, Moroso wires are used in the highest levels of racing from dual mag Top Fuel Cars thru NASCAR Sprint Cup Series. At 40 ohms of resistance per foot the 8.65mm Ultra 40 features a highly engineered, spiral-wound conductor that maximizes energy transfer and minimizes noise interference.

- 668305** Fits all Softail models 00-12
- 668297** Fits all Softails 84-99, FXD 91-98 and FL 80-84
- 668301** Fits all FLT, FLHT, FLHR, FLTR models 97-98
- 668302** Fits all FLT, FLHT, FLHR, FLTR models 99-08
- 668298** Fits all FLT, FLHT, FLHR, FLTR models 85-96 and FLHS 82-93
- 668303** Fits all FXD models 99-12
- 668299** Fits all FXR models 82-99
- 668307** Fits all XL models 07-12
- 668306** Fits all XL models 04-06
- 668300** Fits XL models (except 1200S) 86-03
- 668304** Fits all XL 1200S models
- 668308** Universal wire kit

Supertrapp *STOUT 4" SLIP - ON Mufflers*

Available for 95-12 FLH / FLT models. Non-Tunable, massive 4" chromed body Slip-Ons. Newly developed core. Streamlined, internal Tapered, Billet Aluminum End Cap comes pre-installed. The recessed fasteners in the End Caps are a sign of the true craftsmanship that went into the design of these pipes. Newly shaped inlets flow better into the OEM head pipe.

SUPERTRAPP *STOUT 4" SLIP-ONS*

- 2.4dB louder than stock @ 95.6dB
- Newly-developed tapered core on 10-12 models
- Heavy, broad spread power curve from idle
- 9.3 (16%) hp & 10.5 (14%) torque gain over stock
- SAE-J2825 sound compliant
- Compatible w/ SuperTrapp True Duals and OEM headers.

664612 FLH, FLT 10-12

664613 FLH, FLT 95-09

Power Tune Duals by S&S

Up your performance even more with this header system featuring an independent dual look with hidden crossover. Full chrome heat shielding with 220° coverage. Compatible with all slip-on mufflers.

666403 Fits all 99-08 FLT models

666404 Fits all 09-10 FLT models

THUNDER MAX

EFI made simple.

ThunderMax ECM with Auto-Tune Closed Loop System by Zipper's

Installation and How-To videos available on-line (YouTube – ThunderMaxAV), and New AutoMap software feature creates new base map based on AutoTune automatically generated AFR corrections Adjust and Monitor

- Select Closed Loop AFR/RPM Targets
- Adjust Idle Speed RPM
- Adjustable Rev Limit
- Igniting Timing
- Automatic IAC Calibration
- Speedometer Calibration
- Decel Pop Control
- Read Diagnostic Codes
- Running Statistics / Logs
- Accel Pump Simulation
- Start Fuel Pulse
- Engine Temp Alarm
- Injector Size Compensation
- Live Engine Tuning, Monitoring, Recording
- Map Analysis Feature
- Digital Tech, Nitrous, Supercharger Compatible
- Specific Racing Settings
- Warm-up Settings
- One-Button Support
- Three Year Warranty

And Many More!

The ThunderMax makes sense in the long run as the system can grow and change as your engine does—just load a new map! ThunderMax software, firmware and maps updates are free and accessible 24/7 with an Internet connection so you're only a mouse-click away from the latest available data and product support. Dyno Tuners can access Advanced User SmartLink software that allows full custom mapping of virtually any engine combination. The ThunderMax is designed and manufactured right here in the USA and backed by a 3-year warranty! Requires exhaust system equipped for or modified for use with two oxygen sensors. 10-11 Touring models require relocation of the oxygen sensor bungs in the head pipes for 18mm Wide-Band sensors..

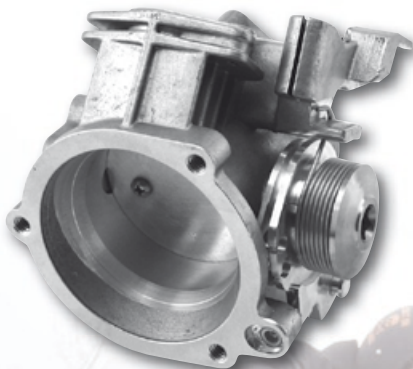

645500

- 645500** ThunderMax ECM with AutoTune Closed Loop System. Fits 02-07 Touring models, 01-10 Softail models and 04-11 Dyna Glide (except CVO) models
- 645514** ThunderMax ECM with AutoTune Closed Loop System for 07-09 XL Sportster models, not XR1200.
- 645515** ThunderMax ECM with AutoTune Closed Loop System for 02-11 V-Rod models
- 645516** ThunderMax ECM with AutoTune Closed Loop System for 08-12 Touring models with Throttle By Wire.
- 645540** ThunderMax ECM with AutoTune Closed Loop System for 08-12 XR 1200 models
- 645542** Thundermax ECM with Auto Tune Closed Loop System for 10-12 XL models (except XR1200)
- 645543** Thundermax Auto Tune Module Only Replacement for CCI 645500
- 645544** Thundermax ECM Module Only - Open Loop 02-07 Touring models, 01-10 Softail models and 04-11 Dyna Glide models.

*Note: Legal in California only for racing vehicles which may never be used upon a highway.

Optional and replacement parts for ThunderMax ECM systems.

- 645519** Replacement O2 sensors for all ThunderMax EFI with Auto tune module
- 645520** Y- harness: The ThunderMax AutoTune gets its power and communicates to the ECM through the motorcycle's factory data port plug. This "Y" harness allows the AutoTune module to be plugged in with an additional plug remaining open for other tasks
- 645521** Pigtail harness: This pigtail harness allows a second port for the communication cable connection to the ThunderMax ECM. It is installed to the bike's wire harness at the 36-pin ECM connector. Handy for models with tight clearances around the ECM such as Dyna, Softail Rocker and 02-05 V-Rod models. Requires ThunderMax ECM with serial number 114000 or higher (produced beginning August 2008) Will not work on previous model ThunderMax ECM's
- 645545** USB/Serial Port Adapter: If your laptop or PC does not have a serial port, this inexpensive adapter will instantly add a serial port to your computer for communicating with the Thundermax EFI controller. (36 pin connector models only; not required for #309-362). Supports 1.0 and 2.0 USB ports, Windows 98/2000/ME/XP/Vista/7. Includes driver installation software.

MAX**
EFI made simple.

ThunderMax Throttle Body by Zipper's

Building a performance big-inch EFI engine? Zipper's ThunderMax EFI throttle body, manifold, and high-flow air cleaner assembly provide the big airflow required for high performance engines. These oversize 50mm and 54mm CNC-machined castings replace the 44 mm factory throttle body used on Delphi-equipped models, and are designed to accept the factory electronic components, including injectors, making assembly a snap.

645503 50 mm throttle body ONLY for Big Twins from 01-05

645504 54 mm throttle body ONLY for Big Twins from 01-05

Note: Manifold, throttle body, air filter and cover sold separately. Requires professional EFI mapping after installation.

**THUNDER
MAX**
EFI made simple.

ThunderMax EFI Manifolds by Zipper's

Available in different widths to match cylinder lengths used on stock and larger displacement engines. They are also available in two intake port sizes; standard 1.625" I.D. to fit stock port diameters and oversize 1.780" I.D. to fit larger ports found in S&S and Zipper's High Output heads. Matching ThunderMax EFI manifolds are available for both 50 mm and 54 mm ThunderMax throttle bodies and for most popular engine kits from 95" up to 124". For use with ThunderMax Throttle Bodies in Big Twin applications from 01-05.

645505 For stock length cylinders with standard 1.1625" port

645506 For stock length cylinders with oversized 1.780" port

645507 For 5.013"-5.016"-length cylinders with oversized 1.780" port

S&S 124" HOT SET UP KIT

The 124" Hot Set Up Kits are available. They contain a dished Piston designed to provide a 10.8:1 compression ratio with stock cylinder heads. There are several advantages to installing this kit as opposed to installing a Complete 124" S&S engine. The first advantage is that you don't have to pay for a complete engine! Many of the stock engine components such as the crankcases, Oil pump, cam cover, and tappets are reused, saving hundreds of dollars. Also, S&S does not offer complete engines to replace Twin Cam 88B engine. Another consideration is that since the stock crankcases are used, the engine will retain the Original serial numbers. This could mean less hassle with registration and insurance.

99-06 Twin Cam 88B

- 614576** Natural for OEM Heads
- 614577** Black for OEM Heads
- 614578** Natural W/Super Stock Heads
- 614579** Black W/Super Stock Heads

99-06 Twin Cam 88

- 614580** Natural for OEM Heads
- 614593** Black for OEM Heads
- 614594** Natural W/Super Stock Heads
- 614595** Black W/Super Stock Heads

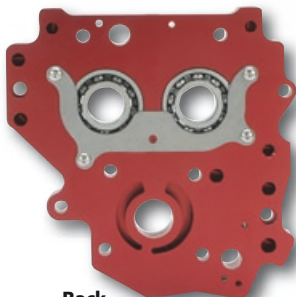

S&S Adjustable Pushrods for Twin Cam Models

Manufactured from rigid chromemoly steel tubing. Retainer clips and upper pushrod covers have been designed to provide a more stable, rigid cover assembly. Kit includes pushrods, required gaskets, O-rings and replacement pushrod covers and retainer clips. For stock height Twin Cam engines.

46754 Complete pushrod kit

Back

 **FEULING**

Feuling Cam Support Plates For Twin Cam Models

- Increases engine oil flow and volume by enlarging critical oil passages and the oil pump reservoirs. The cam plate is blue printed and matched to the Feuling oil pump which allows the engine to take full advantage of the increased volume from the Feuling oil pump
- Made from 7075 billet aluminum and hard anodized which increases the strength and hardness of the camplate, holds tighter tolerances under temperature and eliminates the pinion shaft bushing
- Increased oil flow to pinion shaft and connecting rod bearings
- Tighter cam bearing bore tolerance for improved press fit
- Pressure relief valve and spring are designed for increased volume and pressure, eliminating the need to stretch the spring or use a shim
- Decreases engine temperature by 20 degrees
- When matched with the Feuling Race Pump rear wheel power gains of three horsepower and four ft/lbs of torque are achieved
- For use ONLY with the Feuling oil pumps
- Includes bearing retainer plate and hardware
- Bolts into stock location

622151 Fits Twin Cam 88 engines with gear drive cams (except 2006 Dyna Glide models) from 99-06

622152 Fits Twin Cam 88 engines with chain drive cams (except 2006 Dyna Glide models) from 99-06

622153 Fits 06 Dyna Glide models, and all 07-12 Big Twin models

FEULING

Feuling 'Super Pump' for Early Twin Cam 88 Engines

The ultimate oil pump for Twin Cam 88 engines! It's an absolute must for modified engines and highly recommended for stock applications.

- Aerospace design
- No wet sumping
- Cooler oil and more horsepower
- 40% more pressure volume and 60% more scavenge volume
- High-flow 2" gerotor gears
- Bolts into stock oil pump location

600152 Fits all Twin Cam 88 engines (except 06 Dyna Glide models) from 99-06

622168 Rebuild kit for 600152

Ness-Tech 'Fat Rods' Pushrod Tube Covers

- Fattest pushrod covers in the industry
- Look great with today's big inch motors
- Made from chrome-plated 1 1/4"-round billet aluminum bar stock
- Uses the factory inner sleeves and springs to provide the best possible sealing guaranteed availability of replacement parts
- Includes new seals
- Set of four

04974 Fits all Twin Cam engines from 99-12

693974

Barnett

Retro Fit Lock-up Pressure Plates by Barnett

These pressure plates will allow you to turn your Scorpion clutch into a lock-up clutch to tame that beast of an engine in your bike. Choose the pressure plate to match your existing clutch.

693971 Fits Scorpion clutches 36-84

693972 Fits Scorpion clutches 90-97

693973 Fits Scorpion clutches 98-06

693974 Fits Scorpion clutches 07-12

Barnett

Barnett 'Scorpion' Clutch Kits

Billet clutch features over twice as much friction surface area compared to your stock clutch. Provides a positive engagement and release. The problem of "finding neutral" is virtually eliminated and shifting through the gears becomes smooth and precise. Steel spacers on the clutch pack ends, eliminate wear on the aluminum surfaces. Clutches incorporate six heavy-duty coil springs instead of stock diaphragm spring. In addition, an extra spring set with a different spring rate is included, which allows the clutch to be tuned from mild to wild depending on the usage. Tunability is easy without the removal of the primary cover. The Barnett friction plates are compatible with all primary lubricants.

'Scorpion' Clutch Kit features include:

- Heavy-duty snap ring for extra bearing support
- Chromemoly steel hub for strength/durability
- Solid steel thread inserts that resist stripping
- Nine clutch plates with steel spacer at the ends to minimize wear on aluminum surfaces
- Aluminum pressure plate for light assembly and strong pressure
- Six heavy-duty, self-adjusting springs that are 40% stronger for more pressure and can be alternated for a 20% increase

14634 Fits Big Twin models from 98-06 (except 06 Dyna Glide models)

693970 Fits Dyna models 06-12 and Softail & Touring models 07-12

14635 Fits Big Twin models from 90-97

14636 Fits Big Twin models from 86-89

14637 Fits Big Twin models from 36-E84

Replacement Clutch Packs for 'Scorpion' Clutch Kits

Includes fibers and steel plates.

14855 Clutch pack for CC #14634

14856 Clutch pack for CC #14635

14857 Clutch pack for CC #14636

14858 Clutch pack for CC #14637

Chrome 'Porthole' Covers

Brilliantly-designed covers simulating port holes set off an eye-catching custom look.

- Designed for inspection, point and derby covers
- Made of CNC billet aluminum and polished chrome
- Easy installation in minutes
- Sold each

98366 Inspection cover for 4-speed FL and FX models from 65-86 with forward controls and all Softail and Dyna Wide Glide models 84-06

98367 Points cover for all Big Twin & Sportster models from 84-99

98368 Derby cover for all Big Twin models from 70-98

698370 Derby cover for all Big Twin models from 99-12

Roadrider AM26

- Large contact patch for excellent grip at all lean angles
- Interrupted center groove to resist tracking
- Special rubber compound formulated for incredible grip
- Slanted grooves reinforce rubber for wear resistance.
- Perfect for commuter and traditional bikes.
- V speed rated to 149 mph & has matching tread design front/rear.
- Bias-ply construction.

Monotube Fork Cartridge Kit by Progressive Suspension

True high performance front suspension has finally made its way to the HD Touring line. Our state of the art Monotube Fork Kit represents the pinnacle of bagger front end handling. High performance specialty components replace the sloppy open bath damping found in HD forks. The kit features a set of gas charged Monotube dampers and a set of custom tuned fork springs. This kit will convert your standard dual damper and single cartridge forks found on 97-12 Touring models to a true High-Performance Cartridge Forks! This kit is a direct internal component replacement for all FLH/FLT models from 84-12. No modifications to forks are required.

Fits Touring Models

- 680129** Monotube Fork Cartridge kit, Fits all Touring models from 97-12
- 693900** 1"-2" Lowered Monotube Fork Cartridge kit, fits all Touring models from 97-12
- 693928** Monotube Fork Cartridge kit, Fits all Touring models from 84-96
- 693929** 1"-2" Lowered Monotube Fork Cartridge kit, fits all Touring models from 84-96
- 690186** Monotube Fork Cartridge kit, Fits all Tri Glide models from 09-12

Fits Softail & Dyna Wide Glide Models

- 688964** Stock length Monotube Fork Cartridge kit, Fits all 00-11 FXST & 00-05 FXDWG models
- 688966** -1 Lowered Monotube Fork Cartridge kit, Fits all 00-11 FXST & 00-05 FXDWG models
- 688963** Stock length Monotube Fork Cartridge kit, Fits all 00-11 FXST & 00-05 FXDWG models
- 688965** -1 Lowered Monotube Fork Cartridge kit, Fits all 00-12 FLST models

940 Ultra Touring Series Shocks by Progressive Suspension

Specifically designed to deliver a comfortable ride at a 1" lowered stance. Built around Progressives 'Best In Class' IAS technology (IAS Technology - separates wheel movement from chassis movement), the Ultra Touring Shocks utilize all the suspension travel provided by these 13" eye to eye units but provide a 1" lowered ride height with the use of a Progressive rate main spring specifically designed for Touring models. The unique Ultra Touring spring combination not only delivers a lowered ride height while it's being ridden, but also while it's on the kickstand. These shocks are High Pressure gas charged for consistent performance and come in a gloss black finish.

680130 Ultra Touring Shocks, Fits all Touring models from 80-12

944 Ultra Touring Series Shocks by Progressive Suspension

Specifically designed to deliver a comfortable ride at a 1" lowered stance. Built around Progressives newest Frequency Sensing Technology (FST) allows the shocks to sense the frequency of a bump and automatically adjust dampening for a superior ride. The Ultra Touring Shocks utilize all the suspension travel provided by these 13" eye to eye units but provide a 1" lowered ride height with the use of a Progressive rate main spring specifically designed for Touring models. The unique Ultra Touring spring combination not only delivers a lowered ride height while it's being ridden, but also while it's on the kickstand. These shocks are High Pressure gas charged for consistent performance and come in a gloss black finish.

690181 944 Ultra Touring Shocks, Fits all Touring models from 80-12
